OPPORTUNITIES FOR IMPROVEMENT

Traceability & Risk Assessment: The company is encouraged to demonstrate a strong understanding of its supply chains by disclosing the names and addresses of its first-tier suppliers (either across high-risk commodities or across all first-tier suppliers), the names and locations of below-first-tier suppliers, and the countries from which it sources raw materials at high risk of forced labour. The company is further encouraged to assess forced labour risks across its supply chains and disclose the risks identified.

Recruitment: To address the risk of exploitation of migrant workers through recruitment agencies in its supply chains, the company is encouraged to take steps to ensure that workers in its supply chains are not charged fees during any recruitment-related process. The company may further consider disclosing the steps taken to ensure that such fees are reimbursed to the workers and/or provide evidence of payment of recruitment-related fees by suppliers. The company is also encouraged to provide details of how it supports responsible recruitment in its supply chains.

Worker Voice: The company is encouraged to take steps to ensure that a formal mechanism to report grievances regarding labour conditions in the company's supply chains is available and communicated to its suppliers' workers and relevant stakeholders (e.g. independent worker organisations). Further, the company may consider disclosing data about the practical operation of the mechanism, such as the number of grievances filed, addressed, and resolved.
