COMPLIANCE ACCELERATION PROGRAM (CAP) - In 2021, we launched the CAP, in which we offer consultancy services to Renner’s reseller suppliers identified in the audit process as needing to
improve their performance in compliance management. With diagnostic steps and action plans, built with the supplier and our experts, we accelerate the advancement of supplier practices to ensure their compliance and devise the advance to the high performance zone. In the diagnosis we assess six categories – Organizational Structure, Subcontractors’ Management, Document Management, Development of Subcontractors, and Techsocial System Management – and prepare systemic actions to effectively manage risks, involving the top management of companies to ensure commitment with sustainability culture.

We have worked, since 2021, with 33 companies advised by our compliance experts, and obtained initial 45.1% average of diagnoses of compliance acceleration. After six months of followup the compliance acceleration average rose to 83.1%, above the established goal of 80%.
